DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on March 8, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent 6,906,540 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, Mr. Anthony P. Gangemi on June 6, 2005.

The application has been amended as follows:

1) deleting claims 7-8 since the limitation dealing with a scallop has been cancelled in the amendment filed on March 8, 2005.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims are 1) due to the filing of a terminal disclaimer disclaiming the terminal portion of any patent granted on this application as stated above and

2) (a) Regarding claim 1, the primary reason for the allowance of the claim is due to an amendment to the claim that includes an additional limitation of each of the plurality of probes and probe shapes including a probe base, a probe shaft connected to said probe base, a probe end

connected to the probe shaft and one or more raised surfaces on at least one of the probe base, the probe end and the probe shaft. Since claim 2-3 depends from claim 1, they also have allowable subject matter.

2) (b) Regarding claim 4, the primary reason for the allowance of the claim is due to an amendment to the claim that includes an additional limitation of one or more raised surfaces positioned on at least one of the probe base, the probe end and the probe shaft, wherein one or more raised surfaces are not formed from a mechanical process. Since claims 5-6 and 23 depend from claim 4, they also have allowable subject matter.

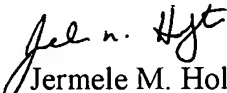

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
